

## Problem Solving Assignment

SAMPLE STUDENT

Problem: I do not play my guitar enough; I want to play once a week.

ABC Behavior Plan Statement: Every week on Saturday, I will play my guitar. If I do this for four weeks in a row, I will go out to eat at the Purple Cow with my family.

Date	Played	How Long
June 23, 2012	Yes	2 hours
June 30, 2012	Yes	1.5 hours
July 7, 2012	Yes	2.5 hours
July 14, 2012	Yes	2.25 hours

This plan succeeded because the behavior I wanted to increase is something I enjoy doing and I looked forward to my reward. I think I should have made the goal to play more than once a week or chosen a different behavior in order to improve this plan.
